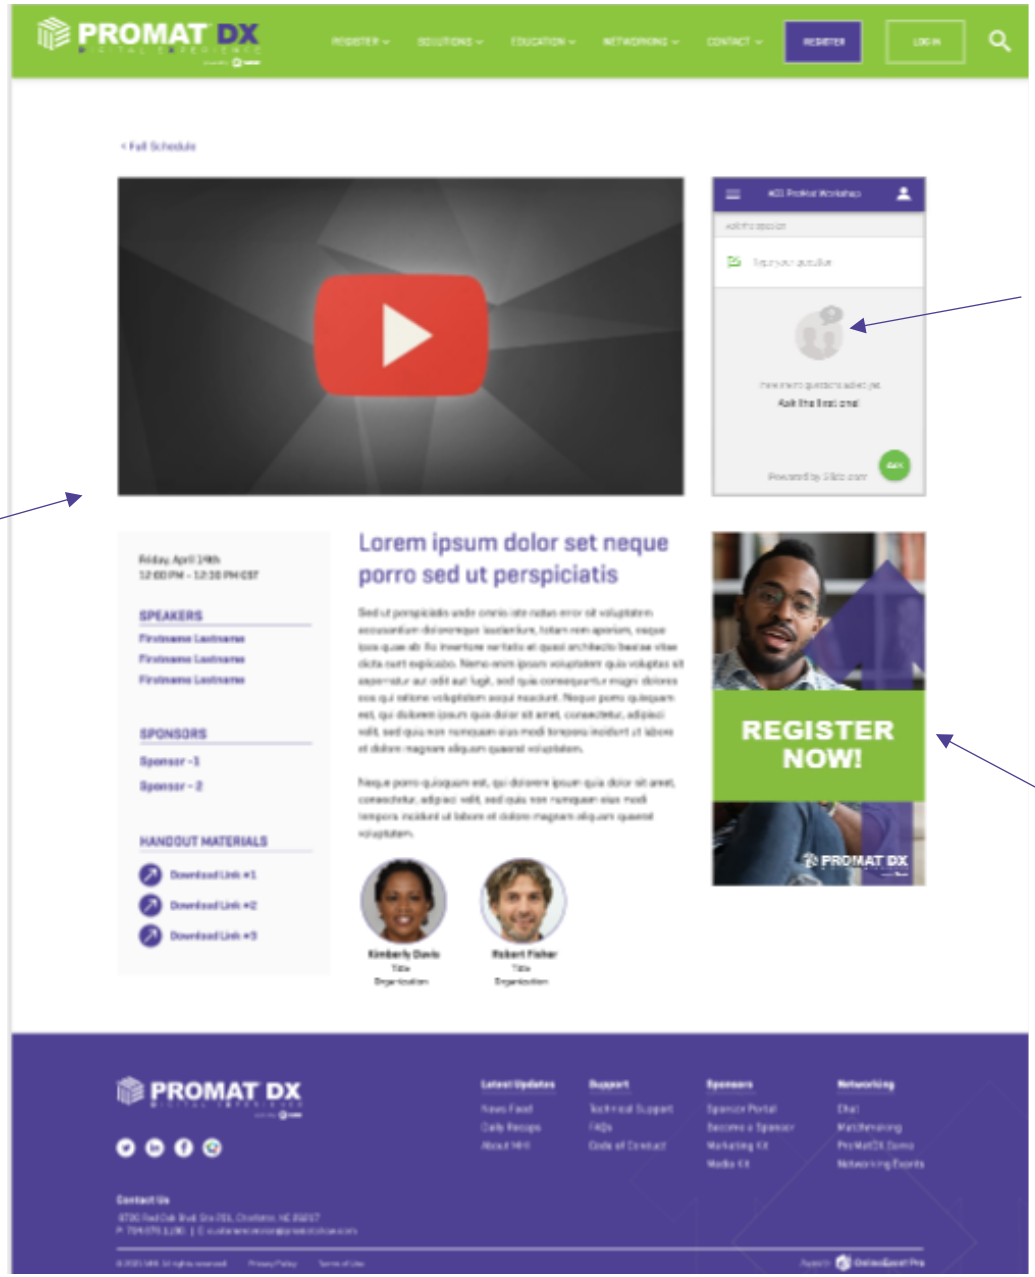
Embedded Q&A Window powered by Slido

ProMatDX Seminar Session Mock Up



Video Player where your seminar session video will play at it's scheduled time.

Embedded Q&A Window powered by Slido

Sponsor's Session Page Banner Ad will appear here.

Live Q&A – Powered by Slido

- Live Q&A is powered by Slido
- Attendees can access the Q&A window to ask questions without any additional log in
- Sponsors can answer questions and do polling on the backend of the site via Slido
- MHI will email out a custom link for each demo and seminar session to the MHI contact on file as the responsible party per your seminar and product demo forms. That contact can then send the custom link/s to whomever they choose, and those individuals will be able to go in and create a Slido account and be able to access each of their demo/sessions' Q&A.
- Please be sure to train your moderators on how to utilize Slido – See to the right for resources.
